

MUSTANG

more than just a place to work

MUSTANG is a way to work - not just a place to work

Since 1987, Mustang has built a legacy of “people taking care of people”, and we’d love for you to become part of our team. Work at a place where your values are valued and where your family becomes part of our family. From Summer picnics to Mustang parties, we celebrate our project and people success within a friendly and caring environment.

Mustang Engineering was started by three adventurous engineers. They envisioned a company whose priorities included taking care of its people and providing the highest quality engineering design for clients versus just ‘selling manhours’ as a commodity.

They were concerned about the longstanding ‘hire and fire’ method of managing workload at engineering companies and believed that by careful planning and marketing, they might revive a stronger sense of loyalty and security within each employee and, perhaps clients as well.

Mustang offers the opportunity to work on world-class global projects with people who are the ‘best of the best’ in the industry. It doesn’t get better than this!

VISION *Our quest is to embody a culture that inspires super-motivated people to make heroes of Clients, Partners, Vendors and Mustangers!*

other than a great place to work, these are some of the other

Benefits

you can expect...
