Where do YOU want to be in 2 years time?

As a graduate, you will see the Graduate Rotation Programme at Wood Group Gas Turbine Services as an opportunity to join a truly global company with a formal structured rotation programme. The GTS Graduate Rotation Programme offers an opportunity to 'test drive' different parts of the business with four 6-month assignments as well as to hone your technical skills along the way.

Wood Group has developed a well-respected programme of recruiting graduate engineers. We look for people who have demonstrated a high level of academic achievement, complemented by practical ability and the potential to handle early responsibility. At Wood Group, we set high standards for our graduate engineers and we provide the right rewards. Throughout your development, our mentors will ensure that you receive a wide variety of project opportunities and hands-on experience.

Dynamic and entrepreneurial, Wood Group is an international energy services company employing more than 27,000 people in 46 countries. Our clients include the major oil & gas companies around the world, BP, Shell, TOTAL, Talisman, Amerada Hess plus some of the largest power generation companies such as E-ON, International Power, Edison, Scottish & Southern Energy, ENEL, Saudi Electric Company, EGAT, and Duke Energy.

If you have the right qualities, plus the drive and enthusiasm, we look forward to hearing from you.

Gas Turbine Services (GTS), a division of Wood Group, is the leading independent provider of operations, maintenance solutions and repair service for a broad range of power plant equipment used in the oil and gas, power generation, industrial and marine markets. GTS activities are global with significant operations in North and South America, Europe, the Middle East and Asia.

GTS offers an exciting GRADUATE ROTATION PROGRAMME for university graduates interested in building a rewarding career. The programme builds on the graduate's acquired skills by providing opportunities to lead challenging projects at various domestic and international business locations over a two year time frame. Assignments will typically last 6 months and require geographic flexibility.

Benefits Include:

- Competitive Pay
- Comprehensive Benefit Plan
- Retirement and Savings Programmes
- Relocation Assistance with every 6 month rotation
- Tuition Reimbursement
- Programme Sign-off bonus

The rotational programme also offers exposure to other functional areas such as Quality and Business Improvement, Operations Management, Supply Chain Management, Finance and Human Resources.

At the end of the Graduate Rotation Programme, full-time positions will be available that will match up the talent/interest of the graduate to the needs of the business.
