

The Infinity Group

Capabilities Profile

Introduction

The Infinity Group of companies is structured around four (4) independent disciplines (Infinity Construction Services, LP, Infinity Maintenance Services, LP, Brazos M & E, Ltd. and United Electrical and Instrumentation Ltd.) that have the unique ability to provide our clients a wide range of services taking projects from concept and groundbreaking operations to startup as well as ongoing maintenance services.

With offices widely spread throughout the Gulf Coast region and the ability to maintain an excellent safety record, The Infinity Group is confident that we can deliver exceptional services and provide a safe and efficient work environment to you, our client.
