What is Safety Shield?

wood.

Safety Shield

Prepare. Engage. Intervene.

- Metaphor for protection
- Wood's new identity for safety
- 3-sided shield, 3 key elements:
 - Prepare
 - Engage
 - Intervene
- Simplifies safety message

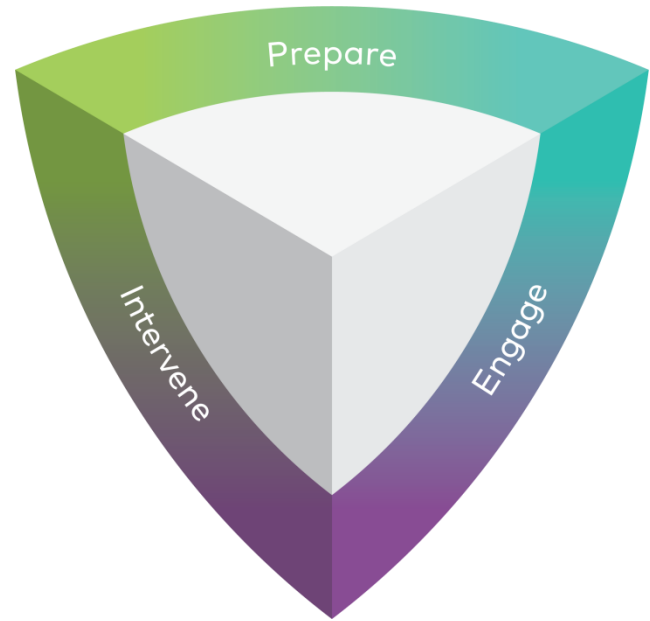

Safety Shield aligns with our values

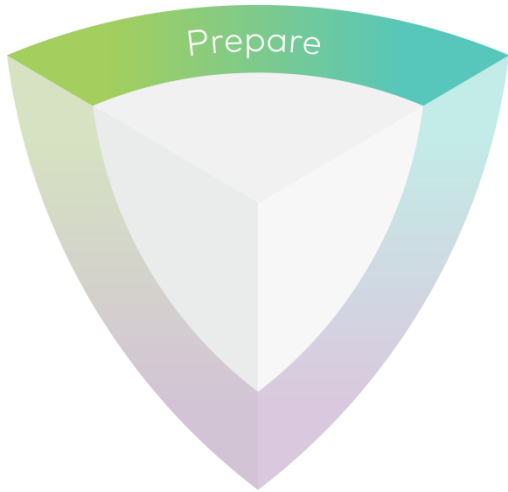

Built on Wood values and behaviours:

- Commitment to prepare
- Care to engage
- Courage to intervene

Everyone responsible for raising the shield

What does prepare mean?

Committing to job readiness **before** we go to work

- Trained and competent
- Assessed the risks
- Planned a safe method of work
- Appropriate procedures and established controls
- Appropriate tools
- Appropriate PPE
- Right level of supervision

It takes commitment to prepare.

What does engage mean?

Taking care to follow safety requirements **at** the job site

- Understand safety tools
- Know the hazards and the risks
- Understand the controls
- Follow the rules
- Follow the plan
- Stop the job if things change
- Look out for one another
- Be accountable and make safe choices

It takes care to engage.

What does intervene mean?

Monitoring job safety progress **during** the work and having courage to address issues **immediately**

- Observe and coach
- Measure and monitor performance
- Stop Work Authority
- Report all incidents and near misses
- Recognise great performance

It takes courage to intervene.

Implementation plan

Throughout **2019** we will:

- Streamline our safety tools
- Drive simplicity and consistency
- Develop the Wood Safety Toolbox
- Recognise great people and performance

Safety Shield

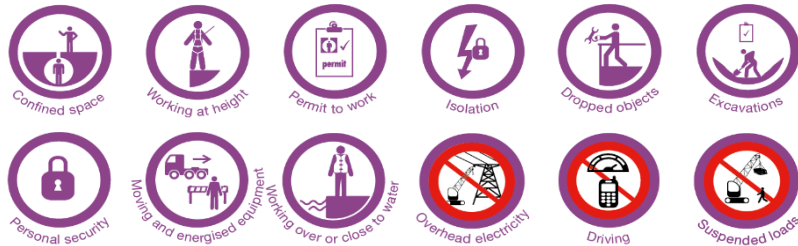

Prepare. Engage. Intervene.

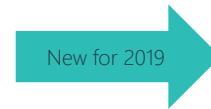

Starting the change – Life Saving Rules (LSRs)

What we will change **now**:

- Streamline processes, starting with our LSRs
- Consolidate 12 LSRs into 9
- Consistent with many of our key customers

2017/8 Old Wood LSR's - 12

2019 New Wood LSR's - 9

Ambassador programme

Supports by:

- Spreading the word
- Assisting the launch
- Leading toolbox talks
